

## CH 250

### External Electronics, 250 W, 2-phase

Product dimensions (mm)	Width	Depth	Height	Weight (g)
PCB assembly only	130	105	40	180
Enclosure	140	115	50	325

#### Features

Proprietary 2-phase control technique  
 Torque ripple compensation control  
 Over-current protection  
 Locked rotor protection  
 Electronic motor temperature protection  
 Soft start and soft stop function  
 Sensorless control  
 Serial communication control

#### Specifications - CH 250 AB

Input power (max) 250 W  
 Input voltage 230 V +/- 10%  
 Supply frequency 50/60 Hz  
 Temperature range -10 to +40°C  
 Inputs 0 -10 V/PWM/serial communication/  
 fixed speeds  
 Outputs Tacho, serial communication  
 Protection IP00 / IP20

#### Connection Diagram

For user wiring diagram refer to  
 Installation Instructions/Application Notes
