Update – Orders for Commercial Refrigeration Motors

Orders for 126,000 AirMoVent commercial refrigeration motors have recently been received from Ugur Refrigeration (Turkey) and Klimasan Refrigeration (Turkey), for delivery over the period February 2007 to June 2007. We have been advised by these companies that they expect to continue ordering similar numbers of motors over the remainder of the calendar year.

A further small order for Wellington ECR electricity saving commercial refrigeration motors was delivered in December to Sanyo Commercial Refrigeration Company Ltd. (Japan) for use in vending equipment. Deliveries of ECR motors to the United States, according to the order announced in November, began this month as planned.

The first production orders of ECR motors for use in service station convenience store refrigerators in the United Kingdom were delivered recently. Further small production orders for ECR motors for supermarket equipment in Norway were also received this month, along with a first order of ECR motors for supermarket equipment in Poland.
